

OEM Systems Group

products for excellent lighting.

LIGHT FOR ANY APPLICATION

Our solutions offer decisive advantages:
more efficiency, more flexibility, more performance.

OEM Systems Group solutions are as individual as your projects.
Adaptable, flexible and powerful, they meet the most diverse requirements.
From lighting in the office to Health. From Education to Industry. Let us talk
about your plans and ideas, we offer fitting systems for every application!

Safe and efficient light.

Ideal for underground garages, long corridors and hallways:
Our luminaires with presence sensor, e.g. ZALUX BASE, combine
high energy efficiency with high quality of light.

Healthy light for well-being.

Realising Human Centric Lighting applications quickly and easily.
Our MixedWhite-systems are the perfect solution for clinics and
nursing homes.

Your data under control.

Smart lighting, data logging and monitoring included - our industrial
lighting solutions combine efficiency with intelligence.
DUNA FLEX combined with ZITARES *wiz* are the perfect solution
for wireless control of your hall lighting systems.

The office lighting of the future.

Networked, intelligent, changeable. Our intelligent LED control
gear ZITARES *wiz*, in conjunction with the Bluetooth communica-
tion module, gives you every opportunity to modernise your office
lighting fast, slim and cost-effective.

Freedom of choice
Our portfolio offers the right solution for every application
and every challenge – customised and reliable.

Intelligent light your way
Intelligent control, connectivity, open systems and flexibility
offer completely new possibilities for your personal light.

Highest light-quality
Your desired light at any time, in any colour and intensity.
Lighting solutions for every application.

All from a single source
From LED components, luminaire components,
HCL applications to complete luminaires, we supply
customised solutions.

„Open air“ starts now.

The ZALEDA evol II is the first and only linear LED luminaire with
a higher degree of protection to enable indoor and outdoor use.
The premium luminaire defies difficult environmental conditions
(protection class IP66) and guarantees excellent thermal manage-
ment. A long life time, high energy and cost efficiency and minimal
maintenance are self-evident as well.

Perspective within the classroom.

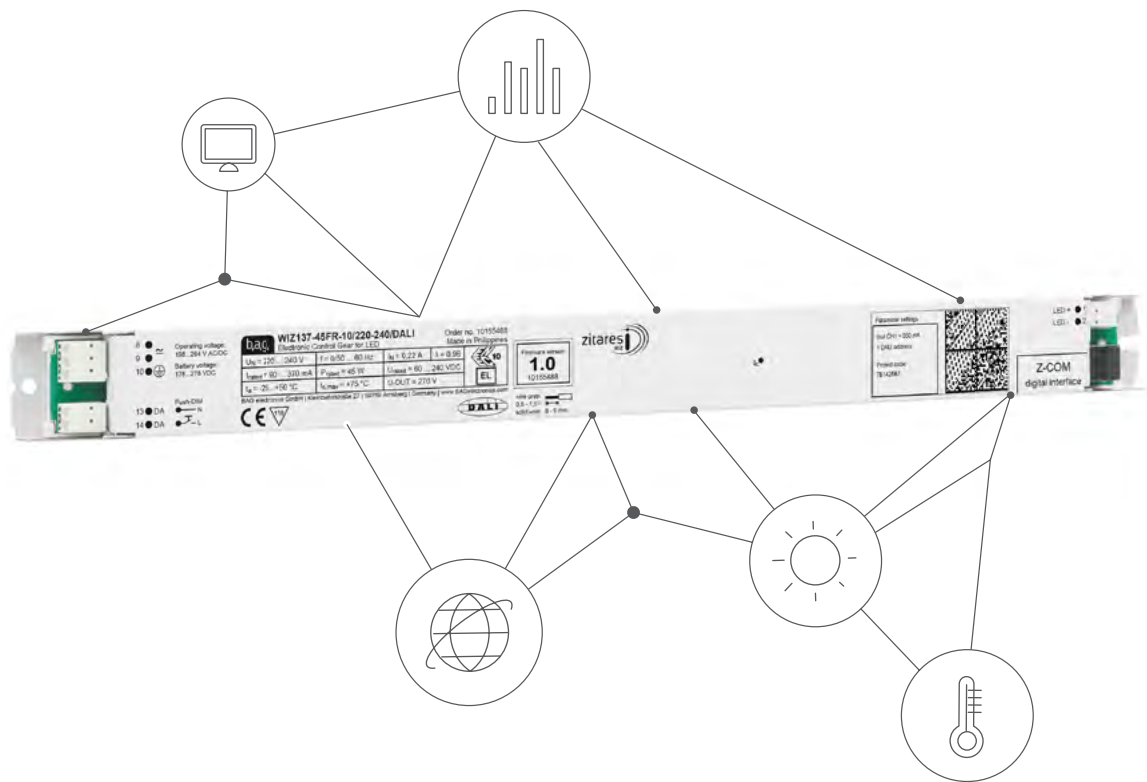

High quality of light without enormous costs. Thanks to their
open interface, our intelligent LED ECG ZITARES *wiz* can be
combined flexibly with sensors. The result is an easily realisable,
daylightdependent control, for example in the classroom –
enabling sustainable and lasting energy savings.

OEM Systems Group

products for excellent lighting.

Let us introduce to you: The lighting solutions of the future.

The time of intelligent lighting solutions has begun. The latest smart control gear units such as ZITARES *wiz* and our user-friendly EXELIQO software make individual control and high efficiency easy. From the DALI application to the open Z-COM interface they offer a maximum of freedom.
